

SPECIAL OFFER TO BSTS MEMBERS:

Ian Wilson (with photographs by Vernon Miller), *The Evidence of the Shroud*, 77 black & white and 35 full colour photographs, plus charts, notes and detailed bibliography, Michael O'Mara Books Ltd., £10.95.

An up-date to Ian Wilson's *The Turin Shroud* published in 1978, this provides both a summary of the whole subject and over-view of the intensive researches that have been conducted since the STURP scientific examination. Two chapters are devoted to providing a layman's guide to the conflict between the microanalysis of Dr. Walter McCrone and the chemical analyses of Doctors Heller and Adler of STURP. Cognoscenti may note that the Shroud photo on p.108 has been printed left to right reversed, a slip-up at the trans-Atlantic end, but the colour photographs by Vernon Miller of STURP are of excellent quality. As a special offer to BSTS members, signed copies of the book are available post free from the publishers at £9.95 each, a price-reduction of £1. Cheques/POs. crossed and made payable to Michael O'Mara Books Ltd., should be addressed to:
